PLEASE FOLLOW THESE GENERAL GUIDELINES FOR RESPONSIBLE EMTB RIDING:

On federal, state, county and local trails, eMTB access varies significantly. Generally speaking, any natural surface trail designated for both motorized and non-motorized use is open to eMTBs.

eMTBs may not be allowed on trails managed for non-motorized activities. Do not ride your eMTB in areas where the local rules are unclear. When in doubt, ask your local land manager about access, since local land rules change frequently.

PeopleForBikes and the Bicycle Product Suppliers Association are working to promote better access to eMTBs. It is critical that eMTB riders ride legally and only on authorized trails to show that mountain bikers are responsible users.

OVERVIEW:
The Goodwater Loop is a technical test of classic Texas Hill Country riding. The limestone terrain, weaving its way through the dense cedar forests and open grassland prairie, can run the gamut from slimy to a “cheese grater” type texture. Although the loop doesn’t throw a lot of elevation at you, it is constantly undulating several sections of short, and sometimes, very steep climbs and descents.

DIRECTIONS TO TRAILHEAD:
From Austin, take Interstate 35 north to Georgetown and Exit 261. Turn left on TX-29 and drive 1.2 miles. Turn right on DB Wood Rd and drive 1.9 to Cedar Breaks Rd. Turn left again and drive 1.4 miles to the park entrance. Follow the signs for the Hike/Bike trail. The Cedar Breaks trailhead will be on the left.

START: Cedar Breaks Trailhead
END: Same as Start
MILEAGE: 25.8
ELEV GAIN/LOSS: 8.53’
RIDE TIME: 3.5-6 hours
