

RHODE ISLAND'S E-BIKE LAW

RHODE ISLAND'S E-BIKE LAW FOR THE ROAD

- » E-bikes are defined as “electric motorized bicycles.” “Electric motorized bicycles” are defined as vehicles with a power output no greater than 1,491w, a maximum speed of 25mph and fully operable pedals.
- » E-bike are not subject to the laws that apply to “motor vehicles.”
- » E-bike are not required to be registered.

- » E-bikes are subject to the rules of the road that apply to “vehicles.”
- » State law does not specifically address whether e-bikes are allowed on bike paths. Consult your local authority or agency for information about whether e-bikes are permitted on bike paths.

* The following Rhode Island laws are referenced: R.I. Gen. Laws § 31-1-3; § 31-3-2.2; § 31-5-1(b); § 31-19-3.

eMTB GUIDELINES

- » On federal, state, county and local trails, e-mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

RHODE ISLAND'S E-BIKE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: The Rhode Island Division of Planning and Development currently does not allow e-bikes on division trails. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: There is little federal land managed for recreation in Rhode Island. However, for reference, eMTBs are considered motorized vehicles and have access to motorized trails on federal lands.

GREAT eMTB RIDES IN RHODE ISLAND

- » **Kent County Gravel Route**
Kent County | 48 miles
- » **Rhodekill Spring Classic**
Warwick | 64 miles

With an e-bike, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, e-bikes are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. PeopleForBikes is clarifying state laws governing the use of e-bikes in the U.S. Every state's law is different, but the objective is to ensure that low-speed e-bikes are regulated similarly to traditional, human-powered bicycles.
